ACTIVE LEARNING & STUDENT PERFORMANCE

Students in an **Active Learning** environment demonstrate better improvement in conceptual understanding than traditional lecture hall classes. Students ask more questions, better questions, and offer explanations about physical phenomena during discussions without being called upon. For more information on Falcon furniture designed to adapt to the needs of the modern classroom and the rapidly evolving active learning environment [click here](#). ACTIVE LEARNING & STUDENT PERFORMANCE

IN A TRADITIONAL CLASSROOM...

CLASSROOM

Instructor generally says about 150 words per minute

Students usually hear only about half (50 percent)

LECTURE

in a typical lecture class, students are attentive just 40 percent of the time
