

THONET®

MODERN HERITAGE COLLECTION

Designed by Qdesign

thonet.com

The Modern Heritage Collection offers seating, tables, storage units and shelving, inspired by the many innovative designs in tubular steel that Thonet commissioned from the most illustrious designers of the 20th century. Design icons such as Marcel Breuer, Mart Stam and Ludwig Mies Van der Rohe created this timeless aesthetic, and now Thonet has completely refreshed all the elements of scale, feature, form, function and color to serve the needs of today's commercial interiors.

THONET®

You can easily configure the components and base units of **The Modern Heritage Shelving System** to meet your unique storage needs. Each base unit offers multiple combinations of shelves, flipper door cabinets, and open box cabinets, each with a wide variety of decorative options. The bridge and end units, can dramatically expand the offering, and since it is finished on all four sides, this Shelving System can easily divide any open office environment, and create flexible, multipurpose spaces.
