HS HANGING SILENTE

Starting At: $1082

Hanging Silente is a single-sided sound-absorbing panel. It can be hung from the ceiling by adjustable cables to allow greater flexibility in its installation. As a result, various configurations can be created by either playing on the different heights of the panels or on their alignments. It's a versatile solution that can be adapted to a wide range of rooms, from office space to conference halls, from theatres to recreational educational areas. This hanging acoustic panel is particularly recommended for high rooms and lets you freely alter the distance from the ceiling to get closer to the sound sources and effectively intercept both the direct and reflected sounds.

We maintain a small inventory of several sizes, in 48-623 and 48-625 fabrics. They are available in 2 - 6 weeks. Sizes: 47"X23.5", 47"X35.5", 47"X47", 47"X94"
