Granite makes a beautiful table. Whether you are a purist that goes for *Absolute Black* or a little funky and go for the *Uba Tuba* look. Granite tables are now standard at Falcon. Our standard offering has either a bullnose model **40522** or an square/eased edge **40511**. Four standard colors are available. All tables will arrive in a crate to prevent damage. We suggested our welded table base series as support for these tops.
